1. DEFINITIONS

1.1 “Tools” means the applications, editors, SDKs, application programming interfaces (“APIs”), templates, sample code, sample applications, data integration connectors, and other similar developer software, documentation, quick start guides, and reference materials including classes and methods, that can be utilized by developers to create Content, that are made available to Customer by SAP on or through the Cloud Service.

1.2 “Content” means HTML5-based code, models, applications, configurations, data, or other electronic materials created by Customer using the Tools licensed hereunder.

1.3 “SAP Software” means SAP proprietary software applications, hosted services and database products licensed separately or provided as part of the Cloud Service.

2. LICENSE: SAP makes the Tools available to Customer on the Cloud Service solely for the purposes of designing, developing, testing, and demonstrating Content that is compatible with SAP Software. The Tools may only be used by Customer via remote access to the Cloud Service; any download or other use is prohibited.

3. COVENANT NOT TO SUE: In exchange for the right to develop Content under this Agreement, Customer covenants not to assert any intellectual property rights in Content created by Customer against any SAP product, service, or future SAP development.

4. GENERAL: Customer may not use the Tools for any type of non-development purposes.

5. RESTRICTIONS: Customer shall ensure that the Content will not: (i) unreasonably impair, degrade or reduce the performance or security of any SAP Software, services, or related technology; (ii) enable the bypassing or circumventing of any SAP license restrictions and/or provide any third party with access to the SAP Software or other SAP products to which such third party is not licensed or otherwise entitled; or (iii) permit mass data extraction from SAP Software to a non-SAP product for the purposes of replacing the SAP Software as the data’s system of record, including use, modification, saving or other processing of such data in the non-SAP product.

6. THIRD PARTY LICENSES: In the event the Content created under this Agreement can be utilized to access, use, edit, copy, or extract data or database content from a third party database or software product, Customer is responsible for having the required license agreement with SAP or other party in place which grants Customer the applicable rights to the database or other software from which Customer is extracting and using data hereunder.

7. OWNERSHIP: Subject to SAP’s ownership of the SAP Software, the Cloud Service and Tools, the ownership of any Content Customer develops under this Agreement shall vest in Customer. Ownership of and title in the Tools and to all intellectual property rights in any SAP proprietary information embodied in the SAP Software and the Cloud Service are and shall remain in SAP and its licensors. Customer acquires only the rights expressly set forth under Section 2 above. Nothing in this Agreement shall in any way convey to Customer any ownership rights or title in or to the SAP Software, the Cloud Service or Tools. The SAP Software, the Cloud Service and Tools, may not be modified or altered in any way except by SAP (except to the extent permitted to Customer by mandatory law).
